Application/Control Number: 10/070,569

Art Unit: 1642

## Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, 13 and 14, drawn to a method for detecting early cancer comprising measuring the level of midkine in a biological sample thereby indicating the presence of early cancer.

Group II, claim(s) 10-12, drawn to a diagnostic agent for early cancer comprising an antibody and a kit comprising the said agent.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical recited in claim 1 is a method for detecting early cancer comprising measuring the level of midkine (MK) in a biological sample comprising comparing levels thereby indicating the presence of early cancer. The Ye et al. (British Journal of Cancer 79(1): 179-184, January 1999) reference teaches a method of associating elevated MK expression with early stage carcinogenesis utilizing an antibody and tissue specimens, see last sentence of abstract and Materials and Methods section, pages 179 and 180. Therefore, the technical feature recited in claim 1 is not special. Accordingly the groups are not so linked as to form a single general concept under PCT Rule 13.1.

3. A telephone call was made to David R. Saliwanchik on April 29, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
